Testing and Automation: Test-case automation, debugging, AI-assisted development, production support

PROFESSIONAL EXPERIENCE

YardBell | Canada

Technical Operations and Digital Growth Manager | Sep 2026 - Present

- Maintain WordPress website functionality, integrations and customer quotation workflows for a service-based business.
- Troubleshoot website and business-system issues and improve digital workflows through automation.

GrabOn | India (Canada & USA projects) | Jan 2024 - Aug 2026

Full-stack development across GrabOn web products.

Software Development Engineer (SDE) | Jun 2024 - Aug 2026

- Designed and built selected applications independently, defining REST API endpoints, database structures, and interactions between frontend and backend services.
- Built and supported the GrabOn Admin platform for India and US operations and a client partner dashboard using Angular, Node.js and Microsoft SQL Server.
- Developed GrabCash.in across the frontend and backend using Next.js, NestJS, MongoDB and REST API integrations.
- Contributed to WriteGenius.ai using React.js, Node.js, MongoDB and AI-enabled functionality.
- Created Python automation for test-case generation, bug discovery, affiliate-link processing and short-link workflows.
- Deployed selected applications on AWS and Azure using Docker and CI/CD; supported production fixes.
- Developed React.js and WordPress features, responsive page updates and production fixes using HTML, CSS, JavaScript and PHP.
- Maintained website content properties across GrabOn and related brands.

Frontend Developer | Jan 2024 - May 2024

- Built responsive React.js interfaces and implemented frontend features, fixes and improvements for production web applications.

SELECTED DEVELOPMENT PROJECTS

GrabOn.com and GrabOn.ca - Frontend and backend development using Next.js, NestJS, Microsoft SQL Server (MSSQL) and microservices.

GrabCash.in - Full-stack product development using Next.js, NestJS and MongoDB, including frontend interfaces and backend services.

WriteGenius.ai - Product development using React, Angular, Node.js and MongoDB, with AI-enabled functionality.

Shan-e-Tajalli website - Built the original Shan-e-Tajalli website (shanetajalli.org).

WordPress websites and blogs - Development and maintenance work on YardBell.ca, GrabOn.com/blog, GrabOn.ca/blog, toloejadid.com, WriteGenius.ai/blog and GrabCash.in/blog.

pTron.in - Shopify web development for an e-commerce brand.

Freelance UI/UX - Designed website interfaces and user flows in Figma.
